GUIDANCE TO ORGANIZERS

Purpose

The main goal of the Impact days is to recruit participants (students and teachers at a variety of career stages - PhD, postdocs, professors) who are going to participate to MOOW digital bootcamp and raise awareness of MOOW at University

When

Impact Day will be held in each university 2-4 weeks prior to the MOOW launch. For UNINA it will take place at the end of March-beginning of April 2023

Participants

According to the guidelines it is important in the selection of participants to considered:

- the level of interest of participants.
- the recruitment should be inclusive without discrimination;
- equal opportunities to join the course

IMPACT DAYS: SELECTION OF PARTICIPANTS

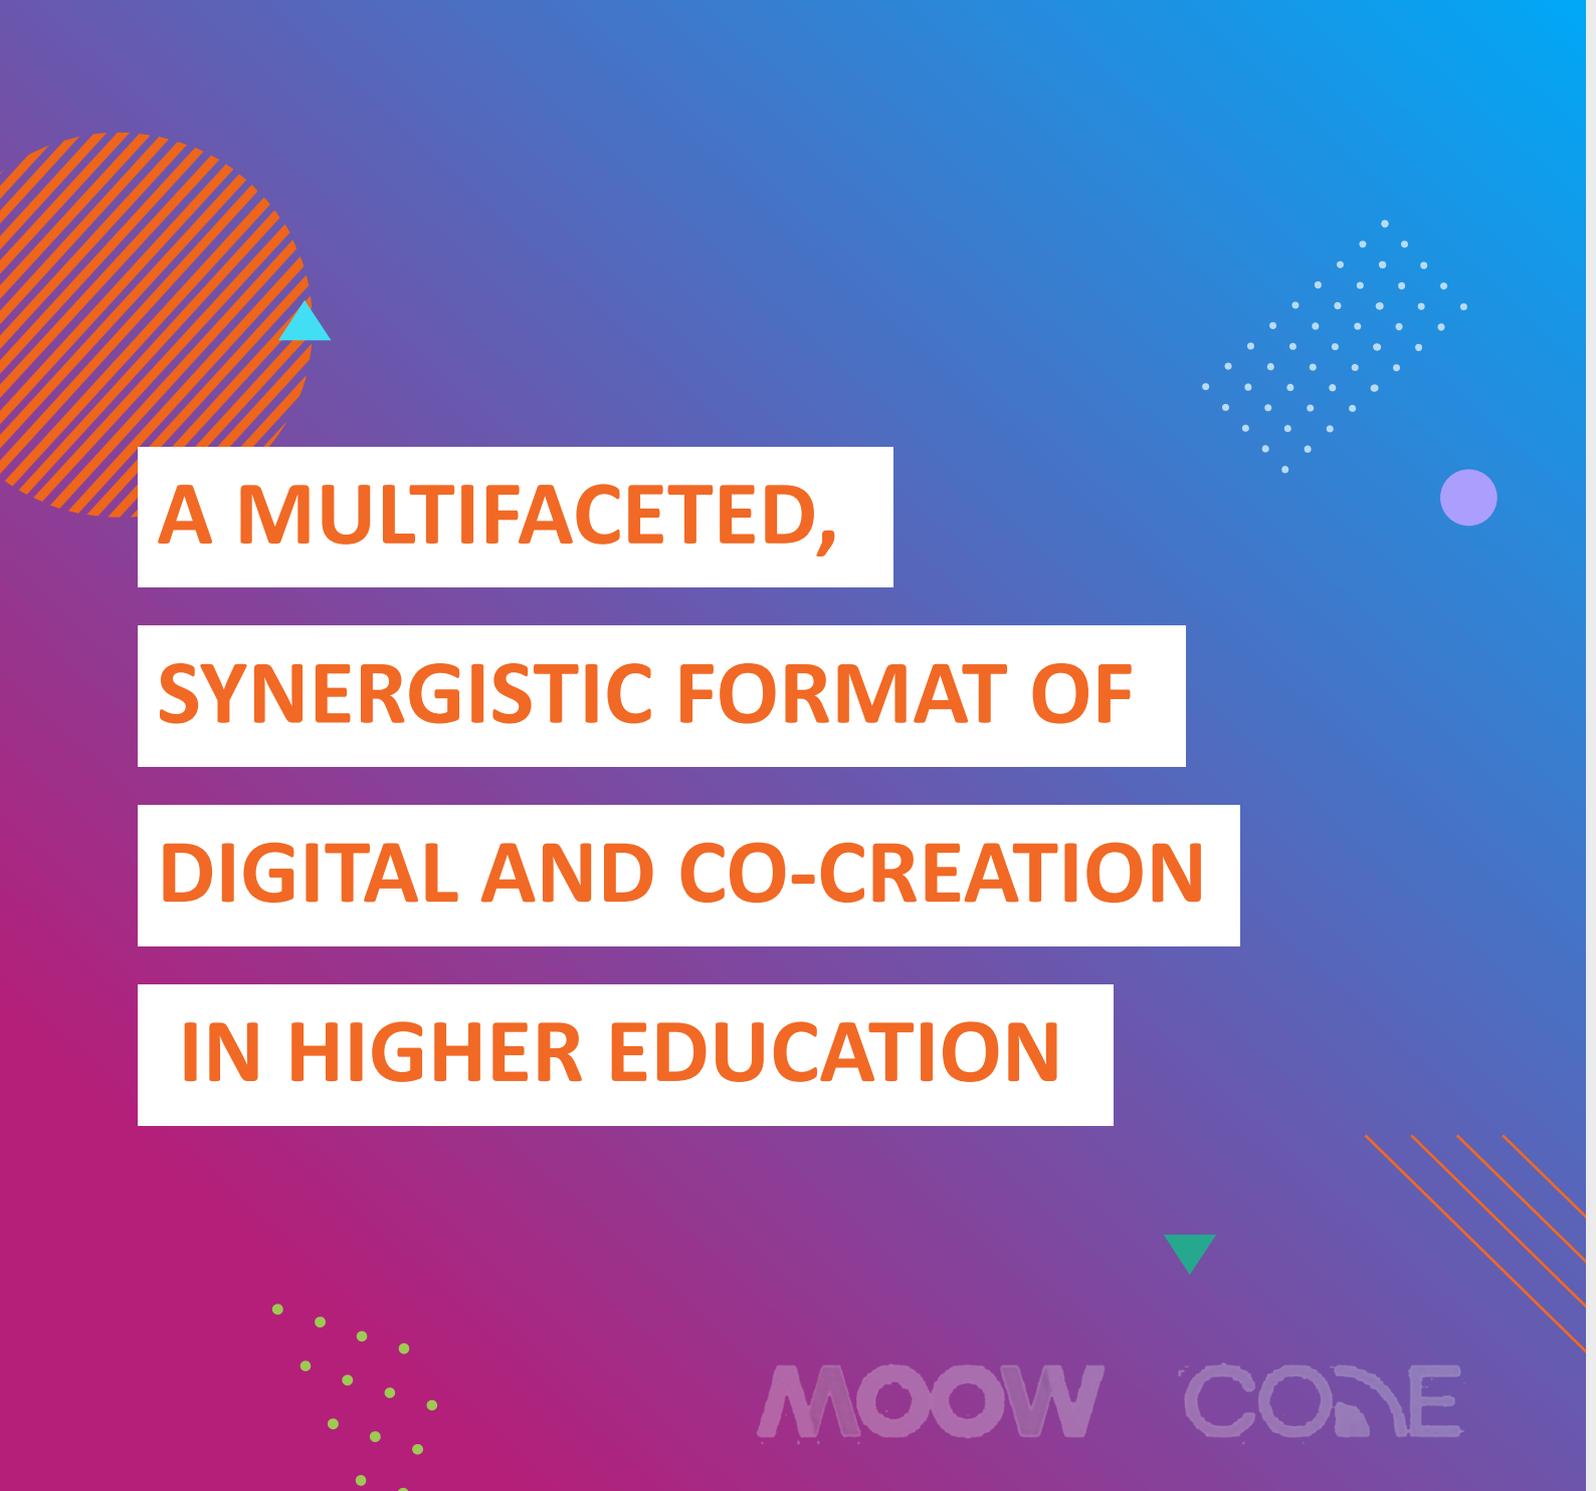

For Students:

You may e.g. consider the past experiences of your Institution in similar events. You may ask teachers whom you want to engage in the realization of the project to recognize the declared interest during the classes.

The other suggested possibility is a short survey via social media of your University. Try to reach with information about MOOW to other Universities to recruit some part of the participants from outside of the University;

For Teachers:

Recruitment can be based on the research interests of the teachers.

IMPACT DAY INSTRUCTIONS

DURATION

- A standard Impact Day will be a 2-3 hour

TYPE OF ACTIVITIES

- Impact Day involves 6-7 talks, plus Q&A about MOOW and Digital Bootcamp in the form physical or online session consisting of presentations and interactive activities
- Our suggestion is to organize it as hybrid event to reach as much students as possible, keeping the chance to be in presence at University premises

For example, an interactive activity could be watching or listening to a podcast with a following discussion. During the event it's important to clarify the topic of the MOOW, its organization, the bootcamp-style, the commitments and the benefits. If foreseen, the other form of recruitment should start at the same time.

IMPACT DAY INSTRUCTIONS

MEMBERS OF MOOW AND EXTERNAL EXPERTS

They should be developers and entrepreneurs having expertise and achievements in MOOW topics.

They play a significant role as they participate in:

- (1) impact days which aim is to recruit students and staff and are
- (2) facilitators during the MOOW.

LANGUAGE OF USE

in Country language to allow a wider student participation

IMPACT DAY PROMOTION

According to the guideline, in order to promote Impact Days and MOOW activities you can use social channel, newsletter/email, face-to-face meeting for example during a class lesson and to ask for collaboration of colleagues interested in the topic.

An example of Impact Day Programme

Intro on MOOW project

First part: Mental health

(3 talks, the titles can be defined according to selected speakers)
